

Name:

Bandit Quiz

Be as explicit as possible in your responses!

1. Write the command to find all `.png` files in your working directory.
2. `foobar` has permissions `d-wxr--rwx`. Explain what that means, and write the terminal command to change its permissions to `drw-r--rw-`.
3. Write the terminal command to output the results of running `quiz.py` into `grades.log`, but only if the line contains `PASS`.
4. Explain why socket encryption is important.
5. On October 4th, 2021 Facebook DNS records were unreachable. Explain what that means, and why it lead to Facebook services being down.
